Subject: FW: Email from the Deputy Minister for Children and Family Development

Dear Contracted Service Provider:

I wanted to update you to changes in funding for contracted service providers. Existing incremental funding to support the impacts of COVID-19 will not be extended past May 31st. Starting June 1, 2020, contractors are permitted – with approval from government – to modify contract deliverables without financial penalty but will only be paid for services provided up to the value of the contract, and unearned revenue will be recovered.

We continue to work with the Ministry of Finance and take advice from public health authorities on how to most effectively support health and safety while continuing to provide important social services.

I would again like to thank you for your support during this challenging time and for your dedication to providing social services that people count on every day. Service providers should continue to engage with their contract managers on any impacts to service and to determine how they can provide services while minimizing transmission of COVID-19.

Thank you,

Allison Bond

Deputy Minister
